What adventures await the teams? Will they cope with the trials and will they be able to demonstrate the power of unity during the difficulties that will arise on their way? And most importantly, will the mystic elixir be found?

After all, if everything works out, then one of the teams will unravel the secret of Caucasian longevity!

GAME DESCRIPTION

At the starting position, at the edge of the forest, the local long-liver welcomes the teams and introduces the rules of the Quest Game.

Each team must complete 12 tasks and earn coins, which at the end of the game you can use to buy the ingredients of longevity.

At each location, the team meets a forester, handing bundles with the hints to the participants.

In the event that the team fails to perform a task, it has the opportunity to ask for help from the Long-Liver, and answering correctly the question asked by him, to get the missing coin.

The team that collects the most coins will become the winner of the game and will be able to go with the Long-Liver to a secret place to get the magic elixir of Caucasian longevity.
